Hey Rob,

Thanks for the offer. I'll check with my contractor and see if they have it or if we need it.

Thanks again,
Mike

I see. Yes our contractor input the data through Scribe. Won't vouch for its organization though. Databases are not START's strong suit. Mike do you have this file? If not, would you like it? Too big to send via email.

I do not need a MDB file. The inquiry was more to determine if Mike needed to add LOE to CDM Smith's work assignment to input historical data into SCRIBE.

Hey Roger, yes the data is in a database. I can drop the MDB file on the I drive and point you to it. Is there anything in particular that you're interested in?

I'm in Helena this week so I may have a learning curve in connecting the network and copying the file. Worst case scenario is Friday. Will that work?

Want to know if any data collected by EPR-SA for the listing of CFAC was placed into SCRIBE.
